PROFILE

Interdisciplinary digital designer with a Master's degree in Interface Design, a Bachelor's degree in Product Design and completed vocational training as a Media Designer for Digital and Print.

Experience in responsive web design, UI/UX, digital design systems and visual content creation. With knowledge of HTML5, CSS3 and JavaScript, I can develop digital concepts with a realistic understanding of technical feasibility and support them through to implementation.

PROFESSIONAL EXPERIENCE

09/2024 - 07/2026

Vocational Training in Digital and Print Media Design

Okidu GmbH, Berlin

- Conceptualised and designed responsive websites for associations, municipalities and other organisations
- Translated existing corporate identities into consistent digital applications
- Created layouts, graphics, icons and UI elements and prepared visual and written content
- Implemented and adapted websites using HTML5, CSS3 and JavaScript
- Managed multiple client projects from initial design and revision rounds through to final quality control

03/2021 - 09/2024

Freelance UX/UI Designer

- Designed responsive user interfaces for B2B, web and e-commerce projects in Germany and the Netherlands, including LAPP, Table du Sud and Plima
- Developed user flows, wireframes, UI components, icons and high-fidelity screens
- Worked with responsive layouts, design systems and shared libraries
- Coordinated with project managers, design teams and other stakeholders
